

# UK Manufactured Duff-Norton Cable Reel Jack

These Cable Reel Jacks are used in pairs for reel support in many industries such as phone and cable companies, public utility companies, industrial plants, warehouses and shipyards. A firm jacking foundation is incorporated in a laminated hardwood base, oil-treated to withstand the effects of severe weather conditions. They provide safe, reliable performance with a minimal measure of physical intervention.

Model Number	Capacity Per Pair		Stroke (in)	Reel Dia. (in)	Top Hook Height (in)	Weight (lbs) including base
	Side Hooks (tons)	Top Hooks (tons)				
516MCR	5	10	9½	20-60	22½	60
